

NEWS RELEASE

MEP Drives Limited and MEP Inc. are pleased to announce a strategic partnership with Delta Electronics, Inc. of Taiwan. Delta a leading international manufacturer of high quality electronic equipment in power management solutions, IT and telecom consumer electronics, visual displays, networking solutions, and Industrial drives and control products has appointed MEP exclusive Canadian stocking distributor for the Delta AC motor drives and servo products. MEP will also distribute Delta's PLC, HMI, temperature controllers, and encoders to the Canadian Market.

MEP will stock the full drive line in their new Toronto and Montreal area warehouses. Warranty and off warranty service and repair along with application support will be provided in both MEP locations. The product line ranges from fractional to 100HP, single and three phase, and all voltages including the Delta 600Volts B and M series.
